

Handbook of Research on Integrating Industry 4.0 in Business and Manufacturing

Part of the Advances in Business Information Systems and Analytics Book Series

Isak Karabegović (Academy of Sciences and Arts of Bosnia and Herzegovina, Bosnia and Herzegovina), Ahmed Kovačević (City, University London, UK), Lejla Banjanović-Mehmedović (University of Tuzla, Bosnia and Herzegovina), and Predrag Dašić (High Technical Mechanical School of Professional Studies in Trstenik, Serbia)

Description:

In Industry 4.0, industrial productions are adjusted to complete smart automation, which means introducing self-automation methods, self-configuration, self-diagnosis of problems and removal, cognition, and intelligent decision making. This implementation of Industry 4.0 brings about a change in business paradigms and production models, and this will be reflected at all levels of the production process including supply chains and will involve all workers in the production process from managers to cyber-physical systems designers and customers as end-users.

The **Handbook of Research on Integrating Industry 4.0 in Business and Manufacturing** is an essential reference source that explores the development and integration of Industry 4.0 by examining changes and innovations to manufacturing processes as well as its applications in different industrial areas. Featuring coverage on a wide range of topics such as cyber physical systems, integration criteria, and artificial intelligence, this book is ideally designed for mechanical engineers, electrical engineers, manufacturers, supply chain managers, logistics specialists, investors, managers, policymakers, production scientists, researchers, academicians, and students at the postgraduate level.

ISBN: 9781799827252

Pages: 400

Copyright: 2020

Release Date: March, 2020

Hardcover: \$265.00

E-Book: \$265.00

**Hardcover
+ E-Book:** \$320.00

Topics Covered:

Additive Technologies
Artificial Intelligence
Big Data
Business Models
Cyber Physical Systems
Cyber Security

Digital Competency
Education
Industry 4.0
Integration Criteria
Smart Factories

Subject: Business and Management

Classification: Handbook of Research

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
