

International Journal of Interdisciplinary Telecommunications and Networking (IJITN)

ISSN: 1941-8663; EISSN: 1941-8671

Established 2009; Published Quarterly

Editor(s)-in-Chief: Michael R Bartolacci (Pennsylvania State University-Berks, USA) and Steven R. Powell (California State Polytechnic University - Pomona, USA)

The International Journal of Interdisciplinary Telecommunications and Networking (IJITN) examines timely and important telecommunications and networking issues, problems, and solutions from a multidimensional, interdisciplinary perspective for researchers and practitioners. IJITN emphasizes the cross-disciplinary viewpoints of electrical engineering, computer science, information technology, operations research, business administration, economics, sociology, and law. The journal publishes theoretical and empirical research findings, case studies, and surveys, as well as the opinions of leaders and experts in the field. The journal's coverage of telecommunications and networking is broad, ranging from cutting edge research to practical implementations. Published articles must be from an interdisciplinary, rather than a narrow, discipline-specific viewpoint. The context may be industry-wide, organizational, individual user, or societal.

Individual Price:

Print: US \$295

E-Journal: US \$295

Print + E-Journal: US \$360

Institution Price:

Print: US \$840

Online Access: US \$840

Print + Online Access: US \$1,015

Prices are subject to change without notification.

Indexed in:

Topics Covered:

- Emerging telecommunications and networking technologies
- Global telecommunications industry business modeling and analysis
- Network management and security
- New telecommunications applications, products, and services
- Social and societal aspects of telecommunications and networking
- Standards and standardization issues for telecommunications and networking
- Strategic telecommunications management
- Telecommunications and networking cultural issues and education
- Telecommunications and networking hardware and software design
- Telecommunications investments and new ventures
- Telecommunications network modeling and design
- Telecommunications regulation and policy issues
- Telecommunications systems economics

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Michael R Bartolacci, IJITN@igi-global.com
