

# Agricultural Management Strategies in a Changing Economy

**Series:** Advances in Finance, Accounting, and Economics (AFAE)

Gabriel Popescu (Bucharest Academy of Economic Studies, Romania) and  
Andrei Jean-Vasile (Petroleum - Gas University of Ploiesti, Romania)

## Description:

Research and development in agriculture is a very relevant topic in today's society, especially given the evolution of land ownership structures and resources exploitation. These transformations have paved the way for new approaches in the allocation and management of agricultural systems.

**Agricultural Management Strategies in a Changing Economy** brings together emergent research and best practices in the area of agricultural management, policy, and structures. Highlighting theoretical concepts and empirical research.

## Readers:

This book will be an all-encompassing reference source for professionals, researchers, academicians, practitioners, and students in the field of agricultural economics and sustainable development, as well as in related disciplines.
