

# Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities

Part of the Advances in Public Policy and Administration Book Series

Ana Maria Cunha (University of Aveiro, Portugal), Augusta Ferreira (University of Aveiro, Portugal), Maria José Fernandes (Polytechnic Institute of Cávado and Ave, Portugal) and Patrícia Gomes (Polytechnic Institute of Cávado and Ave, Portugal)

## Description:

Accounting information, on the one hand, allows government officials to obtain better information to support greater decision making, transparency, and accountability. On the other hand, this financial information also allows local citizens more access to knowledge of how public resources are being managed and used by the local government entities. Measuring the pros and cons of this information may determine how certain officials remain in office while others do not.

**Financial Determinants in Local Re-Election Rates: Emerging Research and Opportunities** is a collection of innovative research that assesses whether accounting information and other factors have an impact on electoral results, which in turn impact re-election in local government. While highlighting topics including political financing, voting behavior, and capital spending, this book is ideally designed for political analysts, politicians, government officials, researchers, policymakers, public policy managers, financial analysts, academicians, and students seeking current research on financial information and other factors having an impact on electoral results.
