

Environmental Information Systems: Concepts, Methodologies, Tools, and Applications

Information Resources Management Association (USA)

Description:

Environmental information and systems play a major role in environmental decision making. As such, it is vital to understand the impact that they have on different aspects of sustainable environmental management, as well as to understand the opportunity they might present for further improvement.

Environmental Information Systems: Concepts, Methodologies, Tools, and Applications is an innovative reference source containing the latest research on the use of information systems to track and organize environmental data for use in an overall environmental management system. Highlighting a range of topics such as environmental analysis, remote sensing, and geographic information science, this multi-volume book is designed for engineers, data scientists, practitioners, academicians, and researchers interested in all aspects of environmental information systems.

ISBN: 9781522570332

Release Date: September, 2018

Copyright: 2019

Pages: 1,726

Topics Covered:

- Computer Modeling
- Data Management
- Data Mining
- Environmental Analysis
- Geographic Information Science
- Remote Sensing
- Risk Assessment
- Sustainability

Hardcover: \$2250.00.00

E-Book: \$2250.00.00

Hardcover + E-Book: \$2720.00
