

# Handbook of Research on Cultural Heritage and Its Impact on Territory Innovation and Development

Part of the Advances in Religious and Cultural Studies Book Series

Lídia Oliveira (University of Aveiro, Portugal), Ana Carla Migueis (University of Aveiro, Portugal) and Ana Melro (University of Aveiro, Portugal)

## Description:

Cultural heritage is perceived as the glue that keeps individuals together and makes them feel a part of something larger. It is the past that allows individuals to understand their present and move towards the future. In networked society, it is impossible to think about cultural heritage and its preservation and maintenance without including the digital processes and ICT systems, as well as its impact on territorial innovation.

The **Handbook of Research on Cultural Heritage and Its Impact on Territory Innovation and Development** is a critical and comprehensive reference book that analyzes how preservation and sustainability of cultural heritage occurs in countries, as well as how it contributes to territorial innovation. Moreover, the book examines how technological tools contribute to its preservation and sustainability, as well as its dissemination. Highlighting topics that include public policies, spatial development, and architectural heritage, this book is ideal for cultural heritage professionals, government officials, policymakers, academicians, researchers, and students.
