

Cases on Instructional Design and Performance Outcomes in Medical Education

Part of the Advances in Medical Education, Research, and Ethics Book Series

Jill Stefaniak (University of Georgia, USA)

Description:

There is increasing attention placed on curricular programs in healthcare at the undergraduate, graduate, and continuing medical education levels. While medical institutions are beginning to hire instructional designers and medical educators to ensure adherence to instructional design principles, many medical educators have been appointed to lead instructional interventions based on their subject-matter expertise. Few have received formal instruction relative to designing instruction.

Cases on Instructional Design and Performance Outcomes in Medical Education is an essential research publication that examines the design and delivery of education programs for healthcare professionals and provides them with the foundational knowledge needed to design effective instruction for a variety of audiences and learning contexts. Highlighting a wide range of topics such as healthcare, medical education, and online learning, this book is ideal for educators, physicians, nurses, allied health professionals, and academicians who are responsible for designing instructional activities.

ISBN: 9781799850922

Pages: 300

Copyright: 2020

Release Date: June, 2020

Hardcover: \$265.00

E-Book: \$265.00

**Hardcover
+ E-Book:** \$320.00

Topics Covered:

Accreditation
Healthcare
Informal Learning Environment
Learning Environments
Medical Education

Medical Simulation
Mobile Learning
Online Learning
Project Management
Service-Learning

Subject: Medical, Healthcare, and Life Sciences

Classification: Casebook

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
