

Promoting Qualitative Research Methods for Critical Reflection and Change

Viktor Wang (University of Montana Western, USA)

Description:

The philosophical foundation of emancipatory knowledge lies in critical theory. In this paradigm, instrumental and communicative knowledge are not rejected but are limited. If we do not question current scientific and social theories and accepted truths, we may never realize how we are constrained by their inevitable distortions and errors. Without the possibility of critical questioning of ourselves and our beliefs, such constraining knowledge can be accepted by entire cultures. The research paradigm that is relevant for constructing this kind of knowledge is the critical paradigm. Data are always qualitative and have specific methods of research. Quantitative research unquestionably has a place and is fundamental to scientific advances, but qualitative research delves into what it is to be human. Through qualitative research, we gain insight into communicative knowledge, its rich nature, and the mechanisms by which communicative knowledge is formed and interpreted. Qualitative research enables the necessary exploration and critical analysis of social systems and uncovers and facilitates critical reflections on the inevitable assumptions, which shape social behavior and interaction, thereby stimulating and empowering change.

Promoting Qualitative Research Methods for Critical Reflection and Change provides readers with a comprehensive array of qualitative research methods, which can be implemented in a variety of contexts for a variety of purposes. The chapters explore the impact, uses, and methodologies for qualitative research across various fields of research. This book is ideal for practitioners, researchers, academicians, and students interested in the use of qualitative research methods.

ISBN: 9781799876007

Pages: 367

Copyright: 2021

Release Date: April, 2021

Hardcover: \$195.00

Softcover: \$150.00

E-Book: \$195.00

Hardcover + E-Book: \$235.00

Topics Covered:

Action Research
Case Studies
Data Analysis
Data Collection
Feminist Research

Grounded Theory
Participatory Research
Phenomenology
Qualitative Research Methods
Self-Study

Subject: Library and Information Science

Classification: Edited Reference

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
