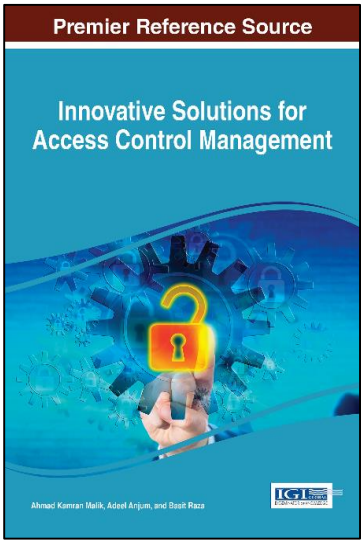
Innovative Solutions for Access Control Management

Part of the Advances in Information Security, Privacy, and Ethics Book Series

Ahmad Kamran Malik (COMSATS Institute of Information Technology, Pakistan), Adeel Anjum (COMSATS Institute of Information Technology, Pakistan) and Basit Raza (COMSATS Institute of Information Technology, Pakistan)



Description:

Technological innovation and evolution continues to improve personal and professional lifestyles, as well as general organizational and business practices; however, these advancements also create potential issues in the security and privacy of the user's information.

Innovative Solutions for Access Control Management features a comprehensive discussion on the trending topics and emergent research in IT security and governance. Highlights theoretical frameworks and best practices, as well as challenges and solutions within the topic of access control and management.

Readers:

This publication is a pivotal reference source for researchers, practitioners, students, database vendors, and organizations within the information technology and computer science fields.

ISBN: 9781522504481 **Release Date:** June, 2016 **Copyright:** 2016 **Pages:** 270

Topics Covered:

- Adaptive Trust Negotiation
- Cloud Applications
- Collaborative Environments
- Mobile Computing
- Network Intrusion Detection
- Social Media
- User Authentication Requirements
