

# Modern Techniques for Successful IT Project Management

**Series:** Advances in IT Personnel and Project Management (AITPPM)

**Editor(s):** Shang Gao (Zhongnan University of Economics and Law, China), and Lazar Rusu (Stockholm University, Sweden)

## Description:

Computer technology provides the opportunity for innovation and progress in the daily operations and initiatives of corporations. Despite the positive elements of integrating technology into the workplace, corporations continue to struggle with the challenges created by rapid technological advancements.

**Modern Techniques for Successful IT Project Management** brings together academic research and professional practice to examine the complexity of implementing technology into the structure and organization of a corporation's ventures.

## Readers:

This publication is an essential reference source for researchers, professionals, and upper-level university students working in the fields of project management, information systems, and IT project management interested in the methodologies and research necessary to improve the impact of Information Technology.

**ISBN:** 9781466674738

**Release Date:** January 2015

**Copyright:** 2015

**Pages:** 345

## Topics Covered:

- Cross-Sector Collaboration
- Human Performance Technology
- Information Systems
- Outsourcing Success Factors
- Scheduling Optimization
- Service Oriented Architecture
- Software Development

## Chapter 1

*Resource Allocation Through Scheduling Optimization*  
Michael A. Chilton, Kansas State University, USA

## Chapter 2

*IT Project Alignment in Practice*  
Andreas Nilsson, Stockholm University, Sweden

## Chapter 3

*CMMI Implementation and Results: The Case of a Software Company*  
Marco Liberato, Espírito Santo Informática, Portugal;  
João Varajão, Universidade do Minho, Portugal, Centro Algoritmi, Portugal;  
Paulo Martins, Universidade de Trás-os-Montes e Alto Douro, Portugal

## Chapter 4

*A Coordination Perspective on Agile Software Development*  
Diane E. Strode, Whitiorea Polytechnic, New Zealand  
Sid L. Huff, Ivey Business School, Canada

## Chapter 5

*Systems Development Process Improvement Using Principles from Organization Development*  
John Krogstie, IDI, NTNU, Trondheim, Norway

## Chapter 6

*Strategic Software Project Governance and Learning through Project Portfolio Management*  
Pouyan Parvahan, Cassini Consulting GmbH, Germany  
Andreas Drechsler, University of Duisburg-Essen, Germany

## Chapter 7

*Agile Project Management: Is Motivation Theory the Missing Link?*  
Tomas Jansson, Project Management Dept., Karlstad University, Sweden

## Chapter 8

*Towards Effective Teaching in Project Management*  
Xiaohui Zhao, Information Systems Discipline, University of Canberra, Australia

## Chapter 9

*IT Outsourcing Success Factors: A Study of Large and Medium-sized Companies*  
Georg Hodosi, Stockholm University, Sweden  
Robert Kaye, Royal Institute of Technology (KTH) Stockholm, Sweden  
Lazar Rusu, Stockholm University, Sweden

## Chapter 10

*A Framework of Risk in Global IT Projects and Mitigation Strategies from Service-Oriented Architecture*  
One-Ki (Daniel) Lee, MS&IS Department, University of Massachusetts Boston, USA  
Roger Blake, MS&IS Department, University of Massachusetts Boston, USA  
Deepa Varghese Baby, MS&IS Department, University of Massachusetts Boston, USA

## Chapter 11

*Distributed IS Development Projects-Significant Relational-Oriented Conditions*  
Linda Bergkvist, Karlstad Business School, Karlstad University, Sweden

## Chapter 12

*SOA Governance Considerations for Successful Project Management*  
Konstantinos Koumaditis, Department of Digital Systems, University of Piraeus, Greece  
Marinos Themistocleous, Department of Digital Systems, University of Piraeus, Greece and  
University of Coimbra, Portugal

## Chapter 13

*Cross-Sector Collaboration between Business and Non-Business Actors: The Case of an ICT-Project in Brazil*  
Emilene Reis Leite, Uppsala University, Sweden  
Anna Bengtson, Uppsala University, Sweden

## Chapter 14

*Why Change Programmes Don't Produce Change: The Case of ITEnabled Change in Public Service Organisations*  
Joe McDonagh, School of Business, Trinity College Dublin, Ireland

## Chapter 15

*Evaluation of IT Projects in the Context of Human Performance Technology: Principles, Processes and Models*  
Ilker YAKIN, Mersin University, Turkey

**Shang Gao** is an Associate Professor through the School of Business Administration with Zhongnan University of Economics and Law, China. He obtained his PhD (2011) in Information Systems from the Norwegian University of Science and Technology (NTNU), and his MSc (2006) in Engineering and Management of Information Systems from the Royal Institute of Technology (KTH), Sweden. His research interests include mobile information systems, technology diffusion, business process modeling, and information systems modeling. He has published more than 30 refereed papers in journals, books and archival proceedings since 2006.

**Lazar Rusu** is a Professor of Computer and Systems Sciences with Stockholm University, Sweden. He holds a PhD in Management from the West University of Timisoara, Romania and the title of Docent in Information Systems from the Royal Institute of Technology (KTH) in Stockholm, Sweden. His primary research interest is in IT management, an area in which he boasts over 25 of professional experience. He is Co-Editor of the International Journal of Knowledge Society Research and the Associate Editor of the International Journal of IT/Business Alignment and Governance.
