

Knowledge-Based Urban Development in the Middle East

Part of the Advances in Electronic Government, Digital Divide, and Regional Development Book Series

Ali A. Alraouf (Qatar Urban Planning, Qatar)

Description:

The knowledge economy has become an important part of contemporary development for cities in a time of globalization and expansion. Examining theories of knowledge transfer and urban advancement allows for better adaptation in a changing global society.

Knowledge-Based Urban Development in the Middle East provides emerging research on the contemporary practices of architecture, urban design, and implementation in contemporary Middle Eastern cities. Highlighting a range of pertinent topics, such as creative economy, knowledge development, and learning communities, this book is an important resource for academics, researchers, practitioners, and decision makers seeking current research on the issues and challenges of implementing knowledge-based urban development in Middle Eastern cities.
