

Handbook of Research on Race, Gender, and the Fight for Equality

Part of the Advances in Religious and Cultural Studies (ARCS) Book Series

Julie Prescott (University of Bolton, UK)

Description:

Diversity in the workforce can be attributed to both a popular, cultural shift and legislative intervention. Despite these forces, discrimination endures in all aspects of Western society from education to employment. Unequal pay and opportunities for promotion are symptoms of a systematic discrimination of individuals based on race and gender.

The **Handbook of Research on Race, Gender, and the Fight for Equality** provides a critical look at race, gender, and modern day discrimination. Focusing on workplace and educational dynamics, the research found within this book addresses equal opportunity and diversity requirements from a myriad of perspectives.

Readers:

This book is an essential reference source for professionals and researchers working in equality as well as managers and those in leadership roles.
