

Handbook of Research on the Efficacy of Training Programs and Systems in Medical Education

Part of the Advances in Medical Education, Research, and Ethics Book Series

Ruth Gotian (Weill Cornell Medicine, USA), Yoon Kang (Weill Cornell Medical College, USA) and Joseph Safdieh (Weill Cornell Medical College, USA)

Description:

The content of medical education knowledge transfer is compounded as medical breakthroughs constantly impact treatment, and new diseases are discovered at an increasingly rapid pace. While much of the knowledge transfer remains unchanged throughout the generations, there are unique hallmarks to this generation's education, ranging from the impact of technology on learning formats to the use of standardized patients and virtual reality in the classroom.

The **Handbook of Research on the Efficacy of Training Programs and Systems in Medical Education** is an essential reference source that focuses on key considerations in medical curriculum and content delivery and features new methods of knowledge and skill transfer. Featuring research on topics such as the generational workforce, medical accreditation, and professional development, this book is ideally designed for teachers, physicians, learning practitioners, IT consultants, higher education faculty, instructional designers, school administrators, researchers, academicians, and medical students seeking coverage on major and high-profile issues in medical education.
