

Emerging Innovations in Agile Software Development

Part of the Advances in Systems Analysis, Software Engineering, and High Performance Computing Book Series

Imran Ghani (Universiti Teknologi Malaysia, Malaysia), Dayang Norhayati Abang Jawawi (Universiti Teknologi Malaysia, Malaysia), Siva Dorairaj (Software Education, New Zealand) and Ahmed Sidky (ICAgile, USA)

Description:

Agile is a relatively recent methodology used in the development process of a project. Therefore, it is important to share new emerging knowledge with researchers and professionals interested in adopting an agile mindset.

Emerging Innovations in Agile Software Development focuses on the use of agile methodologies to manage, design, develop, test and maintain software projects. Emphasizes research-based solutions for contemporary software development.

Readers:

This publication is designed for use by software developers, researchers, and graduate-level students in software engineering and project management programs.

ISBN: 9781466698581

Release Date: March, 2016

Copyright: 2016

Pages: 296

Topics Covered:

- Agile Assessment Methods
- Agile Transformation
- Agile Transmission Models
- IT Project Management
- Organizational Agility
- Software Engineering
