

International Journal of Smart Sensor Technologies and Applications (IJSSTA)

ISSN: 2644-1845; EISSN: 2644-1853
Established 2020; Published Quarterly

Editor(s)-in-Chief: Mohamed Elhoseny (Mansoura University, Egypt) and Xiaohui Yuan (University of North Texas, USA)

The International Journal of Smart Sensor Technologies and Applications (IJSSTA) identifies challenges and solutions for smart sensor technologies and applications in complex environments such as smart cities. Smart Sensors are perceived as a key building block for recent smart cities applications such as the Internet of Things (IoT). IJSSTA deals with the scientific and technological issues of the future sensing technologies for the smart real-life applications. The journal welcomes contributions, including case studies, on the advances in smart sensing technologies and algorithms as well as investigations on the economic and regulatory aspects. The journal provides an in-depth analysis both theoretically and analytically of the current advances in processing real-time data for optimal planning and management of a smart city. Moreover, the authors are expected to investigate state-of-art research challenges, results, architecture, application, and other achievements in the field of smart sensor technologies used for smart city planning.

Individual Price:

Print: US \$320

E-Journal: US \$320

Print + E-Journal: US \$385

Institution Price:

Print: US \$860

Online Access: US \$860

Print + Online Access: US \$1,040

Prices are subject to change without notification.

Topics Covered:

- Deployment of Smart Sensors
- IoT-Enabled Sensors and Technologies
- Other Smart Sensors Subfields
- Sensors Real-Time Data Processing
- Sensors Technologies for Industrial Applications
- Smart Homes and Its Applications
- Smart Sensor Technologies for Smart City Applications
- System, Design, Modeling and Evaluation for Sensor-Based Applications
- The Role of Sensors Based- IoT Applications in the Planning of Future Smart Cities

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Mohamed Elhoseny, IJSSTA@igi-global.com
