

Cases on Audio-Visual Media in Language Education

Part of the Advances in Educational Technologies and Instructional Design
Book Series

Catherine Hua Xiang (London School of Economics and Political
Science, UK)

Description:

Technology has permanently altered and optimized the field of education. With the assistance of innovative tools, such as multimedia technology, instructors can create a positive impact on students' learning experience.

Cases on Audio-Visual Media in Language Education includes comprehensive coverage and scholarly insights on the latest trends in technology-assisted language learning techniques. Highlighting a range of perspectives on topics such as intercultural competence, student engagement, and online learning, this case book is ideally designed for educators, researchers, academics, practitioners, and professionals interested in the application of audio-visual media in contemporary teaching practices.
