

# Handbook of Research on Applied AI for International Business and Marketing Applications

Part of the Advances in Marketing, Customer Relationship Management, and E-Services Book Series

Bryan Christiansen (Global Training Group, Ltd, UK) and Tihana Škrinjarčić (University of Zagreb, Croatia)

## Description:

Artificial intelligence (AI) describes machines/computers that mimic cognitive functions that humans associate with other human minds, such as learning and problem solving. As businesses have evolved to include more automation of processes, it has become more vital to understand AI and its various applications. Additionally, it is important for workers in the marketing industry to understand how to coincide with and utilize these techniques to enhance and make their work more efficient.

The **Handbook of Research on Applied AI for International Business and Marketing Applications** is a critical scholarly publication that provides comprehensive research on artificial intelligence applications within the context of international business. Highlighting a wide range of topics such as diversification, risk management, and artificial intelligence, this book is ideal for marketers, business professionals, academicians, practitioners, researchers, and students.
