

Precision Agriculture Technologies for Food Security and Sustainability

Part of the Advances in Environmental Engineering and Green Technologies Book Series

Sherine Mohamed Abd El-Kader (Electronics Research Institute, Cairo, Egypt) and Basma Mamdouh Mohammad El-Basioni (Electronics Research Institute, Cairo, Egypt)

Description:

Precision agriculture integrates new technologies with the agronomic experience to intelligently manage the high spatial variability of all agricultural variables and the time scales at which these variables change. The right application of this approach increases the size and quality of the agricultural production; saves resources; improves environmental quality; helps to achieve self-sufficiency, food security, and agricultural sustainability; increases exports; and more.

Precision Agriculture Technologies for Food Security and Sustainability is an essential reference source that compiles a comprehensive, multidisciplinary review of current research in the field of precision agriculture. It also discusses cutting-edge tools and models that can help facilitate and improve the systems implementation. Featuring coverage of a wide range of topics including agronomy, public policy, and internet of things, this book is ideally designed for agriculturalists, government officials, economists, environmentalists, academicians, researchers, students, and engineers in the fields of electronics, ICT, and agriculture.

ISBN: 9781799850007

Pages: 300

Copyright: 2021

Release Date: August, 2020

Hardcover: \$195.00

Softcover: \$150.00

E-Book: \$195.00

Hardcover + E-Book: \$235.00

Topics Covered:

Agricultural Sensors

Agronomy

Autonomous Machinery

Commercialization Strategies

Decision Support Systems

Economics

Education Systems

Hardware

Implementation Strategies

Internet of Things

Market Segmentation and Analysis

Nanotechnology

Public Policy

Software

Subject: Environmental, Agricultural, and Physical Sciences

Classification: Edited Reference

Readership Level: Advanced-Academic Level (Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
