Description:

Resistance movements to economic measures and militaristic policies have been increasing in Latin America and the Caribbean since the 1960s. Indigenous and peasant movements are advancing against the exploitation of their territories by mining, oil, and other companies, as well as movements of migrants, women, and other popular rural and urban sectors.

Historical and Future Global Impacts of Armed Groups and Social Movements: Emerging Research and Opportunities is an essential scholarly publication that examines resistance and alternative movements that protest existing government systems and political injustice. Featuring a wide range of topics such as neoliberalism, social movement, and dictatorship, this book is ideal for politicians, historians, diplomats, sociologists, international relations officers, policymakers, researchers, professionals, government officials, academicians, and students.
