

Handbook of Research on Globalization, Investment, and Growth-Implications of Confidence and Governance

Part of the Advances in Finance, Accounting, and Economics (AFAE) Book Series

Ramesh Chandra Das (Katwa College, University of Burdwan, India)

Description:

The global economic crises of recent years have offered some sobering lessons, compelling economists, political scientists, and policymakers to reconsider traditional theories regarding the cultivation of developing nations.

The **Handbook of Research on Globalization, Investment, and Growth-Implications of Confidence and Governance** seeks to empirically explore the relationship between a number of variables, including consumer confidence, private-sector performance, and governmental regulation.

Readers:

This book seeks to categorize and analyze developing economies in a post-crisis global financial landscape in order to help shape desperately-needed policies capable of safeguarding against potential catastrophe.
