

Smart Village Infrastructure and Sustainable Rural Communities

Part of the Advances in Electronic Government, Digital Divide, and Regional Development Book Series

Mohammad Ayoub Khan (University of Bisha, Saudi Arabia), Bhumika Gupta (Govind Ballabh Pant Institute of Engineering & Technology, Pauri Garhwal, India), Agya Ram Verma (Govind Ballabh Pant Institute of Engineering & Technology, Pauri Garhwal, India), Pushkar Praveen (Govind Ballabh Pant Institute of Engineering & Technology, India) and Cathryn J. Peoples (Ulster University, UK)

Description:

The COVID-19 pandemic demonstrated the necessity for establishing practical strategic global education collaboration throughout the world. The challenges are serious and come in many forms, including but not limited to educational policies, technology limitations, economic, mental health, linguistic barriers, and power struggles. Undoubtedly, international education has a profound impact on the world community, and both teachers and learners need to equip themselves with global critical ways and skills to navigate all kinds of challenges and bring about positive change in the world.

Smart Village Infrastructure and Sustainable Rural Communities highlights the role of educators as agents and conveyors for positive change in local, regional, and global arenas. As such, it analyzes various conventional and modern educational and learning theories and teaching pedagogies to promote global citizenship among students and teachers. Covering key topics such as learning engagement, curriculum, and online learning, this reference work is ideal for higher education faculty, administrators, researchers, practitioners, academicians, instructors, and students.

ISBN: 9781668464182

Pages: 315

Copyright: 2023

Release Date: June, 2023
