

Parental Influence on Educational Success and Wellbeing

Part of the Advances in Early Childhood and K-12 Education Book Series

Ana Maria Gamez (California Baptist University, USA)

Description:

Within parenting, a complex dynamic emerges as empirical research intersects with practical applications. **Effects of Parenting on Student Learning and Well-Being** navigates uncharted territories in parenting research, tackling pivotal issues like culture, minority experiences, lifespan perspectives, disabilities, and the convergence of medical and legal dimensions. Its uniqueness lies in theoretical exploration and in providing tangible solutions—offering parents concrete best practices and strategies.

This book is an indispensable resource for parents seeking to navigate the multifaceted challenges of nurturing their children in diverse contexts. By integrating insights from various dimensions of parenting research, the book equips parents with a nuanced understanding of how their actions reverberate through their child's life, influencing academic achievement and emotional well-being.

Effects of Parenting on Student Learning and Well-Being is a holistic approach to parenting, encompassing not only the mainstream experiences but also delving into the nuances of cultural diversity, minority perspectives, and the challenges faced by parents of children with disabilities. This book is ideal for university courses spanning child development, lifespan studies, psychology, sociology, and clinical psychology. As an invaluable tool for academic and practical purposes, this book bridges the gap in the literature, offering a universal guide for parents worldwide. With a focus on enhancing parents' physical and emotional wellness, it empowers them to provide optimal support and guidance to their children, fostering an environment conducive to learning and well-being.
