

Advanced Online Education and Training Technologies

Part of the Advances in Educational Technologies and Instructional Design Book Series

Maki Habib (The American University in Cairo, Egypt)

Description:

Technology plays a vital role in bridging the digital divide and enhancing student learning both in and outside of the classroom. This is possible thanks to the successful use of educational online technologies and other new teaching resources being integrated into learning environments.

Advanced Online Education and Training Technologies is an essential reference source that explores student and teacher learning through various online platforms. Featuring research on topics such as professional development in the twenty-first century and cultural differences in online learning environments, this book is ideally designed for educators, students, academicians, and other education professionals seeking coverage on enhanced student learning through technology-based learning tools.
