

# Government Response to Disruptive Innovation: Perspectives and Examinations

Part of the Advances in Public Policy and Administration Book Series

Sam B. Edwards, III (Quinnipiac University, USA) and  
James R. Masterson (Morehead State University, USA)

## Description:

With the increasing pace of disruptive innovation, the world in general and governments in particular are experiencing challenges in adapting their systems to these new technologies. While the focus is on disruptive industries, these innovations also disrupt how governments regulate industries and technologies. The regulatory and policy choices governments and other regulatory bodies make have a profound impact on the industry by decreasing or magnifying uncertainty. Many of these disruptive technologies offer opportunities and challenges to the way governments interact in their communities.

**Government Response to Disruptive Innovation: Perspectives and Examinations** presents research and case studies on government responses to disruptive innovations from a wide array of countries. It addresses the effects on the development of these innovations as a result of responses governments make. Covering topics such as citizen partnerships, communication technology development, and government action, this premier reference source is a dynamic resource for legal professionals, activists, government officials, sociologists, business leaders and executives, students and educators of higher education, librarians, researchers, and academicians.

**ISBN:** 9781668464298

**Pages:** 315

**Copyright:** 2023

**Release Date:** March, 2023

**Hardcover:** \$215.00
