

Neuroleadership Development and Effective Communication in Modern Business

Part of the Advances in Logistics, Operations, and Management Science Book Series

Jyoti Kukreja (Chitkara University, India), Shefali Saluja (Jagannath International Management School (JIMS), Kalkaji, New Delhi, India) and Sandhir Sharma (Chitkara University, India)

Description:

In today's rapidly evolving business landscape, leaders face unprecedented challenges in navigating complex organizational dynamics, fostering innovation, and driving sustainable growth. Traditional leadership approaches often must address these multifaceted issues, leading to stagnation and missed corporate opportunities. The emerging field of Neuroleadership offers a transformative solution by leveraging cutting-edge insights from neuroscience and psychology to revolutionize leadership practices.

Neuroleadership Development and Effective Communication in Modern Business is a comprehensive guide to understanding and implementing Neuroleadership principles, offering a groundbreaking approach to leadership development. By integrating neuroscience fundamentals with practical leadership strategies, this book equips leaders with the tools to enhance emotional intelligence, optimize decision-making processes, and cultivate a culture of innovation and collaboration within their organizations.

Through in-depth explorations, readers will understand how the brain functions in leadership roles, learning to leverage neuroplasticity to drive organizational change effectively. With topics ranging from stress management and resilience to ethical leadership considerations, this book provides a holistic framework for leadership excellence in the digital age. Whether you're a seasoned executive, a leadership development professional, or a scholar seeking to explore the frontiers of leadership research, **Neuroleadership Development and Effective Communication in Modern Business** is your essential companion to mastering the art and science of Neuroleadership.
