

# Reconsidering the Impact of Climate Change on Global Water Supply, Use, and Management

Part of the Advances in Environmental Engineering and Green Technologies Book Series

Prakash Rao (Symbiosis International University, India) and Yogesh Patil (Symbiosis International University, India)

## Description:

Changes in the planet's climate in recent years have led to significant impacts on natural resources and ecosystems. New strategies must be adopted in order to support the protection and continued development of numerous natural resources.

**Reconsidering the Impact of Climate Change on Global Water Supply, Use, and Management** is a pivotal reference source for the latest scholarly material on the relationship between global climate changes and the planet's water ecosystems. Highlights relevant environmental, social, and economic issues.

## Readers:

This book is ideally designed for academics, researchers, policy makers, students, and practitioners interested in the impacts of climate change on global water resources.

ISBN: 9781522510468

Release Date: November, 2016

Copyright: 2017

Pages: 392

## Topics Covered:

- Bottled-Water Production
- Climate Smart Agriculture
- Glacial Retreat
- Industrial Wastewater Management
- Mountain Ecosystems
- Sustainable Watershed Management
- Water Treatment and Irrigation

Hardcover +  
Free E-Access:

**\$215.00**

## Table of Content

### Preface

#### Chapter 1

Recent Trends, Issues and Challenges in Water Resource Development And Global Climate Change  
*Prakash Rao, Symbiosis Institute of International Business, Symbiosis International University, Pune, India*  
*Yogesh Patil, Symbiosis Centre for Research and Innovation, Symbiosis International University, Pune, India*

#### Chapter 2

Traditional Water Management System for Climate Change Adaptation in Mountain Ecosystems  
*Bhaskar Shrinivasulu Padigala, Centre for Environmental Planning & Technology University (CEPT), Ahmedabad, Gujarat, India*

#### Chapter 3

Understanding Glacial Retreat in the Indian Himalaya: Historical Trends and Field Studies from a Large Glacier  
*Rajesh Kumar, School of Basic Sciences and Research, Sharda University, India*  
*Prakash Rao, Symbiosis Institute of International Business, Symbiosis International University, Pune, India*  
*G Areendran, Indira Gandhi Conservation Monitoring Centre (IGCMC), WWF India*

#### Chapter 4

Issues, Concerns and Local Stakes: Future of Water Resources in Coastal Villages of Devbag and Tarkarli, Coastal Maharashtra, India  
*Navendu Chaudhary, Symbiosis Institute of Geoinformatics, Symbiosis International University, Pune, India*  
*Yogesh Pisolkar, Symbiosis Centre for Management Studies, Symbiosis International University, Pune, India*

#### Chapter 5

Impact of Climate Change on the Retreat of Himalayan Glaciers and Its Impact on Major River Hydrology Himalayan Glaciers Hydrology  
*Ram Karan Singh, King Khalid University, Kingdom of Saudi Arabia*

#### Chapter 6

Mitigation of Climate Change Impacts through Treatment and Management of Low Quality Water for Irrigation in Pakistan  
*Ghulam Murtaza, Institute of Soil and Environmental Sciences, University of Agriculture Faisalabad, Pakistan*  
*Muhammad Saqib, Institute of Soil and Environmental Sciences, University of Agriculture Faisalabad, Pakistan*  
*Saifullah, College of Applied Medical Sciences, University of Dammam, Kingdom of Saudi Arabia.*  
*Muhammad Zia-ur-Rehman, Institute of Soil and Environmental Sciences, University of Agriculture Faisalabad, Pakistan*  
*Muhammad Naveed, Institute of Soil and Environmental Sciences, University of Agriculture Faisalabad, Pakistan*  
*Abdul Ghafoor, Institute of Soil and Environmental Sciences, University of Agriculture Faisalabad, Pakistan*

#### Chapter 7

Characterization and Management Concerns of Water Resources around Pallikaranai Marsh, South Chennai  
*Avantika Bhaskar, Care Earth Trust, Chennai, India*  
*G. Babu Rao, Care Earth Trust, Chennai, India*  
*Jayshree Vencatesan, Care Earth Trust, Chennai, India*

#### Chapter 8

Achieving Climate Smart Agriculture with a Sustainable Use of Water: A Conceptual Framework for Sustaining the Use of Water for Agriculture in the Era of Climate Change  
*Sneha Kumari, Symbiosis Centre for Research and Innovation, Symbiosis International University, Pune, India*  
*Yogesh Patil, Symbiosis Centre for Research and Innovation, Symbiosis International University, Pune, India*

#### Chapter 9

Entangled Systems at the Energy-Water-Food Nexus: Challenges and Opportunities  
*Joseph Nyangon, Center for Energy and Environmental Policy, University of Delaware, USA*  
*Nabeel Alabbas, Center for Energy and Environmental Policy, University of Delaware, USA*  
*Lawrence Agbemabiese, Center for Energy and Environmental Policy, University of Delaware, USA*

#### Chapter 10

Inter Linkages of Water, Climate and Agriculture  
*Sunil Londhe, World Agroforestry Centre (ICRAF), Pusa Campus, New Delhi, India*

#### Chapter 11

Role of Water - Energy - Waste Inter-Relatedness to Drive Sustainability amid Climate Concerns  
*Saili K Sen, Multilateral Developmental Institution in Manila Asian Development Bank, Philippines Asian Institute of Management, Manila, Philippines*  
*Junya Pookayaporn, Founder of University Social Responsibility, Sripatum University, Thailand*

#### Chapter 12

Congo Basin's Shrinking Watersheds: Potential Consequences on Local Communities  
*Bila-Isia Inogwabini, Center for Research and Sustainable Development Communication (CERED), Saint Pierre Canisius Institute of Agriculture and Veterinary Sciences (ISAV) Kinshasa, Democratic Republic of Congo & Swedish University of Agricultural Sciences, Uppsala, Sweden*

#### Chapter 13

Tipaimukh Multipurpose Hydroelectric Project-A Policy Perspective: Indo-Bangla Priorities, Indigenous Peoples' Right and Environmental Concern  
*Ali Reja Osmani, Karimganj Law College, Silchar, Assam, India*

#### Chapter 14

An Approach to Sustainable Watershed Management: Case Studies on Enhancing Sustainability with Challenges of Water in Western Maharashtra  
*Sneha Kumari, Symbiosis Centre for Research and Innovation, Symbiosis International University, Pune, India*  
*Yogesh Patil, Symbiosis Centre for Research and Innovation, Symbiosis International University, Pune, India*  
*Prakash Rao, Symbiosis Institute of International Business, Symbiosis International University, Pune, India*

#### Chapter 15

Participation Framework to Sustainability: The Undercurrents in Bottled-Water Production and Consumption  
*Taksina Chai-ittipornwong, Rajabhat Muban Chombueng University, Thailand*

#### Chapter 16

Industrial wastewater management in the context of climate change adaptation in selected cities of India – A business approach  
*Rahul Hiremath, Symbiosis Centre for Management and Human Resource Development, Symbiosis International University, Pune, India*  
*Bimlesh Kumar, Civil Engineering, Indian Institute of Technology, Guwahati.*  
*Sheelratan S. Bansode, Mechanical Engineering Department, Solapur University, India.*  
*Gurudas Nulkar, Symbiosis Centre for Management and Human Resource Development, Symbiosis International University, & Trustee Ecological Society, Pune, India*  
*Sharmila S Patil, Information Technology Department, WIT, Solapur, India*  
*J. Murali, Environmental Solutions and Consultancy, Dubai*

#### Chapter 17

Adaptive Coevolution: Realigning the Water Governance Regime to the Changing Climate  
*Dauglas Wafula Juma, Tongji University UNEP-Institute of Environment for Sustainable Development (IESD), Shanghai, China*

Makomere Reuben, Tongji University UNEP-Institute of Environment for Sustainable Development (IESD), Shanghai, China  
Hongtao Wang, Fengting Li, Tongji University UNEP-Institute of Environment for Sustainable Development (IESD), Shanghai, China

**Chapter 18**

Climate Change and Agriculture: Time for a Responsive and Responsible System of Water Management  
Eshwar Anand Ventrapragada, Symbiosis Institute of Media and Communication, Symbiosis International University, Pune, India

Neela Rayavarapu, Symbiosis Institute of Technology, Symbiosis International University, Pune, India

**Chapter 19**

Common Duckweeds as a Model System for Climate Change Impact Assessment

Vinay Rale, Symbiosis School of Biomedical Sciences, Symbiosis International University, Pune, India  
Pooja Tendulkar, Biologist, SA Associates, Bareilly, Uttar Pradesh, India

**Prakash Rao** has 33 years of experience in the field of energy and environmental management with interests in climate change, energy and sustainable development. He holds a Ph.D. from the University of Bombay, India and has coordinated several multidisciplinary projects ranging from natural resources to climate change and energy. He has led the Climate Change and Energy Programme at WWF-India, coordinating its global research, energy policies and community action. Dr. Rao has published around 82 research papers, notes and book chapters in peer reviewed international journals and books and contributes in an advisory capacity to the corporate sector on environmental sustainability issues. He has published three books including one on Assessment of Climate Change in India and Mitigation Policies. He is also the Deputy Editor of the *International Journal of Agricultural Resources, Governance and Ecology*. He is currently the Deputy Director and Head, Energy and Environment Programme at the Symbiosis Institute of International Business, Symbiosis International University, Pune and is a certified Sustainability Assurance Practitioner from Accountability, UK.

**Yogesh Patil** is a Professor and Head - Research Publications at the Symbiosis International University, Pune, India. Dr. Patil holds his Doctorate degree in Environmental Sciences from Pune University, India and has over sixteen years of Post Graduate teaching and research experience in Environmental Science, Management & Technology. His research areas of interest include - waste management, bioremediation, sustainability, climate change and industrial ecology. He has over 50 research papers in national and international journals of repute and has also published one edited book on 'Applied Bioremediation – Active and Passive Approaches' published by InTech, Croatia. Dr. Patil has undertaken several research/consultancy projects funded by UGC, IFS (Sweden) & OPCW (The Netherlands), World Bank and PMC. He is recipient of several honours/fellowship awards like DST, CSIR, Best PhD Research Award, UGC-Post Doctoral Fellowship to name a few. He is reviewer and editorial board member of several journals indexed in Scopus and SCI.
