Neuromarketing and Big Data Analytics for Strategic Consumer Engagement: Emerging Research and Opportunities

Part of the Advances in Marketing, Customer Relationship Management, and E-Services Book Series

Joana Coutinho de Sousa (Unlimited-Hashtag, Portugal)

Description:
A new sub-area of marketing is emerging called neuromarketing. It combines psychology, neuroscience, and economics with the study of consumer motivations. This is leading to the creation of new technological approaches that enable companies to read the customer’s mind and tailor marketing practices, products, and services.

Neuromarketing and Big Data Analytics for Strategic Consumer Engagement: Emerging Research and Opportunities provides emerging information on the issues involved in the field of neuromarketing, including models, technologies, and the methodology of this field. Highlighting the intricacies of neuroscience, biometrics, multimedia technology, marketing strategy, and big data management, this book is an ideal resource for researchers, neuroscientists, marketers, suppliers, customers, and investors seeking current research on the integration of new neuromarketing trends and technologies.

Topics Covered:
- Big Data Management
- Biometrics
- Branding, Products, and Services Marketing Industries
