

The Past, Present, and Future of Accountancy Education and Professions

Part of the Advances in Finance, Accounting, and Economics Book Series

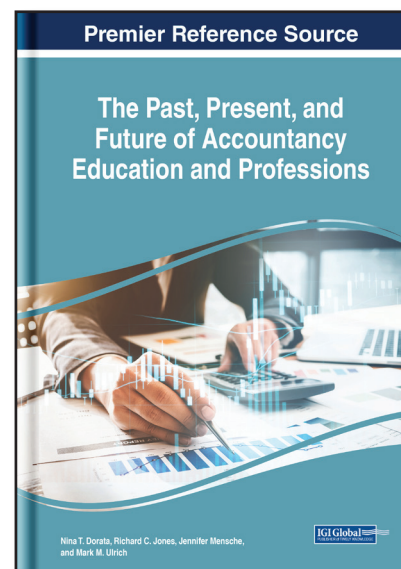

Nina T. Dorata (St. John's University, USA), Richard C. Jones (Hofstra University, USA), Jennifer Mensche (St. Joseph's College, USA) and Mark M. Ulrich (CUNY Queensborough Community College, USA)

Description:

Accountancy provides a significant role and impact on the public and private sectors through its various disciplines and specialties. Trust in human and technological interactions is a primary objective of public accounting.

Accountancy provides the strategic capability to access and interpret organizational performance. Therefore, because of its impactful role, it is important to understand and project how accountancy will change as a profession. As accountancy continuously evolves, it mandates agility among stakeholders, particularly those in education and the professions.

The Past, Present, and Future of Accountancy Education and Professions broadly covers the ways accountancy will require new roles and knowledge for its constituents in the emerging future. The book explores how technological, educational, professional, and societal changes will transform accountancy. Covering topics such as business demands, professional competencies, and student success, this premier reference source is an excellent resource for financial reporters, financial advisors, auditors, accountants, administrators and educators of both K-12 and higher education, students of higher education, pre-service teachers, librarians, researchers, and academicians.
