

Cybersecurity Breaches and Issues Surrounding Online Threat Protection

Part of the Advances in Information Security, Privacy, and Ethics Book Series

Michelle Moore (Department of Defense, USA)

Description:

Technology has become deeply integrated into modern society and various activities throughout everyday life. However, this increases the risk of vulnerabilities, such as hacking or system errors, among other online threats.

Cybersecurity Breaches and Issues Surrounding Online Threat Protection is an essential reference source for the latest scholarly research on the various types of unauthorized access or damage to electronic data. Features extensive coverage across a range of relevant perspectives and topics, such as robotics, cloud computing, and electronic data diffusion.

Readers:

This publication is ideally designed for academicians, researchers, computer engineers, graduate students, and practitioners seeking current research on the threats that exist in the world of technology.

ISBN: 9781522519416

Release Date: March, 2017

Copyright: 2017

Pages: 300

Topics Covered:

- Cloud Based Services
- Cloud Computing
- Cyber Crime
- Data Breaches
- Electronic Data Diffusion
- Internet of Things (IoT)
- Robotics

Preface

Acknowledgment

Section 1

Identifying Cybersecurity and Its Threats

Chapter 1

An Exploration Regarding Issues in Insider Threat

Jaeung Lee, Louisiana Tech University, USA

Anu Mary Eapen, Infosys Limited, USA

Md Shamim Akbar, State University of New York at Buffalo, USA

Raghav Rao, The University of Texas at San Antonio, USA

Chapter 2

The Development of the Cybersecurity Policy and Legislative Landscape in Caribbean States

Dr. Indianna D. Minto-Coy, University of The West Indies, Jamaica

M. Georgia Gibson Henlin, QC, Henlin Gibson Henlin, Jamaica

Chapter 3

Internet Pharmacy Cyber Crime State Policy Mitigating Risks

Dr. Mary Schmeida, Kent State University, USA

Dr. Ramona S. McNeal, University of Northern Iowa, USA

Chapter 4

Identifying and Analyzing the Latent Cyber Threats in Developing Economies

Dr. Atul Bamrara, India Gandhi National Open University, India

Section 2

Cybercrime

Chapter 5

Cyber Crime Investigation

Professor Sujitha S., Thiagarajar College of Engineering, India

Parkavi R., Thiagarajar College of Engineering, India

Chapter 6

Cybercrime via Virtual Currencies in International Business

Dr. Dincer Atli, Uskudar University, Turkey

Chapter 7

Cybersecurity and Data Breaches at Schools

Dr. Libi Shen, University of Phoenix, USA

Dr. Irene Linlin Chen, University of Houston Downtown, USA
Anchi Su, UCLA, USA

Chapter 8

Detection Protocols of Possible Crime Scenes Using Internet of Things (IoT)

Bashar Alohal, Liverpool John Moores University, England

Section 3

Into the Cloud

Chapter 9

Solutions for Securing End User Data over Cloud Deployed Applications

Akashdeep Bhardwaj, UPES Dehradun, India

Chapter 10

Cloud Computing and Cybersecurity Issues Facing Local Enterprises

Dr. Emre Erturk, Eastern Institute of Technology, New Zealand

Chapter 11

SOHO Users' Perceptions of Reliability and Continuity of Cloud Based Services

Dr. Cornel L. Levy, Western Governors University, USA

Dr. Nilsa I. Elias, Western Governors University, USA

Chapter 12

Big Data Security Framework for Distributed Cloud Data Centers

Chandu Thota, Infosys Ltd, USA

Gunasekaran Manogaran, School of Information Technology and Engineering VIT University, India

Dr. Daphne Lopez, School of Information Technology and Engineering VIT University, India

Dr. Vijayakumar V, School of Computing Science and Engineering VIT University, India

Chapter 13

Robotics: Theory and Applications

Dr. Kijpokin Kasemsap, Suan Sunandha Rajabhat University, Thailand

About the Contributors

Index

Michelle Moore has been working in the cyber security industry for the past 20 years both government and in the private sectors. Currently she works for the Department of Defense working in information assurance and risk assessment. She received her PhD in Public Policy with a concentration in Homeland Security from Walden University, Masters in Management Information Systems from Colorado Technical University, and Bachelors of Science in International Business from Strayer University. Her research interests are cyber security, cybercrime, criminal justice, terrorism, risk management, and policy. She also teaches business and cyber security courses for both undergraduate and graduate part-time.
