

Outward Foreign Direct Investment (FDI) in Emerging Market Economies

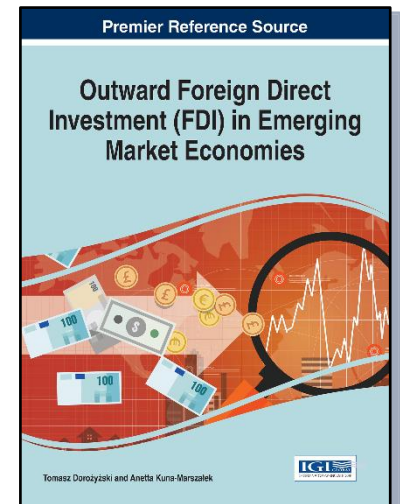

Part of the Advances in Finance, Accounting, and Economics Book Series

Tomasz Dorożyński (University of Lodz, Poland) and Anetta Kuna-Marszałek (University of Lodz, Poland)

Description:

The role of foreign direct investment initiatives is pivotal to effective enterprise development. This is particularly vital to emerging economies that are building their presence in international business markets.

Outward Foreign Direct Investment (FDI) in Emerging Market Economies is a comprehensive source of academic material on the progressive impact of investment opportunities in the context of developing nations. Highlights pivotal research perspectives on topics such as trade, sourcing strategies, and corporate social responsibility.

Readers:

This book is ideally designed for academics, practitioners, graduate students, and professionals interested in the economic performance of emerging markets.
