

Assessing the Current State of Education in the Caribbean

Part of the Advances in Educational Marketing, Administration, and Leadership Book Series

Charmaine Bissessar (University of Roehampton Online, UK)

Description:

To meet the various needs of students, administrative policies and instructional techniques must consistently be improved upon. This allows schools to deliver a higher quality of education to students.

Assessing the Current State of Education in the Caribbean is a pivotal reference source for the latest research on recent developments and innovations for schools in the Caribbean region. Focuses on teacher leadership, learning assessment techniques, and technology uses.

Readers:

This book is ideally designed for educators, school administrators, professionals, and researchers interested in recent developments within the education sector.
