Insight Through Hybrid Intelligence: Fundamentals, Techniques, and Applications

Premier Reference Source

Part of the Advances in Computational Intelligence and Robotics Book Series

Neil Y. Yen (The University of Aizu, Japan),
Joseph C. Tsai (The University of Aizu, Japan), and
Xiaokang Zhou (The University of Aizu, Japan)

Advances in computer processing power and artificial intelligence necessitate new methods of computing and reasoning to solve increasingly complex problems. These methods include combining several artificial intelligence technologies into one integrated system.

Insight Through Hybrid Intelligence: Fundamentals, Techniques, and Applications provides an in-depth discussion on some of the current issues, trends, concepts, and opportunities in intelligent systems design. Professionals and students in the fields of artificial intelligence, computer programming, engineering, and information management will find in this book the most up-to-date research on critical topics in the field of hybrid intelligent systems.

Topics Covered:

- Data Mining
- Artificial Intelligence
- Machine Learning
- Fuzzy Systems
- Evolutionary Algorithms
- Information Processing
- Artificial Neural Networking
- Hybrid Intelligence

ISBN: 9781466648722; © 2014; 314 pp.

Print: US \$195.00 | Perpetual: US \$295.00 | Print + Perpetual: US \$390.00

Pre-pub Discount:*

Print: US \$185.00 | Perpetual: US \$280.00

* Pre-pub price is good through one month after publication date.

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.
