

Technological Solutions for Sustainable Business Practice in Asia

Part of the Advances in Business Strategy and Competitive Advantage (ABSCA) Book Series

Patricia Ordóñez de Pablos (University of Oviedo, Spain)

Description:

Central Asian countries play a geostrategic role in world economy and politics. As a result, efforts are being made to establish an effective channel of communication between academic and research institutions, policymakers, government agencies, and individuals concerned with the complexities of Asian business, information technologies, sustainable development, and globalization.

Technological Solutions for Sustainable Business Practice in Asia provides an in-depth analysis on Asian economy, business, and management with a clear international and interdisciplinary approach.

Readers:

This comprehensive resource is beneficial for academics, PhD students, policymakers, and government officials.
