## Computer-Assisted Foreign Language Teaching and Learning: Technological Advances

Bin Zou (Xi'an Jiaotong-Liverpool University, China), Minjie Xing (University of Manchester, UK), Yuping Wang (Griffith University, Australia), Mingyu Sun (University of Wisconsin - Milwaukee, USA) and Catherine H. Xiang (The London School of Economics and Political Science, UK)

**Computer-Assisted Foreign Language Teaching and Learning: Technological Advances** highlights new research and an original framework that brings together foreign language teaching, experiments and testing practices that utilize the most recent and widely used e-learning resources. This comprehensive collection of research will offer linguistic scholars, language teachers and students as well as policymakers a better understanding of the importance and influence of e-learning in second language acquisition.

### Topics Covered:

- Collaborative Learning
- Computer Mediated Communication
- E-Assessment for Learning
- Intercultural Communication
- Language Learning Software
- Social Networking in Language Learning and Teaching
- Virtual Learning Environment
- Web 2.0 Environments
