

# Analyzing Mobile Apps Using Smart Assessment Methodology

Basheer Riskhan (Albukhary International University, Malaysia)

Khalid Hussain (Albukhary International University, Malaysia)

Halawati Abd Jalil Safuan (Albukhary International University, Malaysia)

## Description:

In today's digital landscape, mobile applications play a role in personal and business operations, making their security and performance critical. Smart assessment methodology offers a structured and intelligent approach to analyzing mobile apps, combining techniques to identify vulnerabilities, performance issues, and compliance issues. Unlike traditional testing methods, this intelligent framework adapts to evolving threats and application environments, providing deeper insights into app functions, data practices, and user interactions. By implementing smart assessment methodology, developers and security professionals can enhance app reliability, optimize user experience, and ensure adherence to privacy and security standards while reducing overall risks.

**Analyzing Mobile Apps Using Smart Assessment Methodology** examines how assessment methodology can be applied to analyze mobile applications for security vulnerabilities, performance issues, and compliance with industry standards. It explores the integration of intelligent techniques to provide a comprehensive and adaptive evaluation of mobile app behavior and risks. This book covers topics such as cloud computing, gamification, and smart technology, and is a useful resource for engineers, educators, academicians, researchers, and scientists.

**ISBN:** 9798369369258 **Pages:** 300 **Copyright:** 2026 **Release Date:** 08-01-2025

**Hardcover:** \$195.00 **Softcover:** \$155.00 **E-Book:** \$195.00 **Hardcover + E-Book:** \$295.00

## Topics Covered:

- Cloud Computing
- Education Assessments
- Educational Technology
- Gamification
- Machine Learning
- Malware
- Mobile Applications
- Quantum Cryptography
- Security and Privacy
- Smart Technology
- Traffic Monitoring

**Subject:** Computer Science and Information Technology

**Readership Level:** Advanced-Academic Level (Research Recommended)

**Classification:** Edited Reference

**Research Suitable For:** Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
