

Financial Sustainability and Intergenerational Equity in Local Governments

Part of the Advances in Electronic Government, Digital Divide, and Regional Development Book Series

Manuel Pedro Rodríguez Bolívar (University of Granada, Spain) and María Deseada López Subires (University of Granada, Spain)

Description:

Due to the mortgage crisis of 2008, laws aimed at achieving budgetary and financial stability were enacted. The concept of financial sustainability has been linked to the need of rendering public services without compromising the ability to do so in the future.

Financial Sustainability and Intergenerational Equity in Local Governments is a critical scholarly resource that analyzes the financial sustainability of local governments with the aim of ensuring equality and intergenerational equity. Featuring coverage on a broad range of topics such as intergenerational equity, public policies, and sustainability management, this book is geared towards government officials, managers, academicians, practitioners, students, and researchers seeking current research on identifying public policies to ensure financial balance.
