

Handbook of Research on Biomimicry in Information Retrieval and Knowledge Management

Part of the Advances in Web Technologies and Engineering Book Series

Reda Mohamed Hamou (Tahar Moulay University of Saida
Algeria, Algeria)

Description:

In the digital age, modern society is exposed to high volumes of multimedia information. In efforts to optimize this information, there are new and emerging methods of information retrieval and knowledge management leading to higher efficiency and a deeper understanding of this data.

The **Handbook of Research on Biomimicry in Information Retrieval and Knowledge Management** is a critical scholarly resource that examines bio-inspired classes that solve computer problems. Featuring coverage on a broad range of topics such as big data analytics, bioinformatics, and black hole optimization, this book is geared towards academicians, practitioners, and researchers seeking current research on the use of biomimicry in information and knowledge management.

ISBN: 9781522530046

Release Date: December, 2017

Copyright: 2018

Pages: 430

Topics Covered:

- Big Data Analytics
- Bioinformatics
- Black Hole Optimization
- Brain Machine Interfaces
- Spam Filtering
- Swarm Intelligence

Hardcover: \$325.00

E-Book: \$325.00

Hardcover + E-Book: \$390.00
