Data Mining in Dynamic Social Networks and Fuzzy Systems

Part of the Advances in Data Mining and Database Management Book Series

Vishal Bhatnagar (Ambedkar Institute of Advanced Communication Technologies and Research, India)

Many organizations, whether in the public or private sector, have begun to take advantage of the tools and techniques used for data mining. Utilizing data mining tools, these organizations are able to reveal the hidden and unknown information from available data.

Data Mining in Dynamic Social Networks and Fuzzy Systems brings together research on the latest trends and patterns of data mining tools and techniques in dynamic social networks and fuzzy systems. With these improved modern techniques of data mining, this publication aims to provide insight and support to researchers and professionals concerned with the management of expertise, knowledge, information, and organizational development.

Topics Covered:

- Contextual Social Network Analysis
- Data Mining Techniques
- Data Preparation
- Fuzzy Analysis
- Fuzzy Neural Networks
- Semantic Web Platforms
- Social Networks
- Temporal Patterns

ISBN: 9781466642133; © 2013; 341 pp.

Print: US \$195.00 | Perpetual: US \$295.00 | Print + Perpetual: US \$390.00

Pre-pub Discount:*

Print: US \$185.00 | Perpetual: US \$280.00

* Pre-pub price is good through one month after publication date.

Market: This premier publication is essential for all academic and research library reference collections.

It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Vishal Bhatnagar received the B-Tech degree in Computer-Science and Engineering from Nagpur University in Nagpur, India in 1999 and the M-Tech in Information-Technology from Punjabi University, Patiala, India in 2005 and PhD from Shobhit University in 2010. Vishal Bhatnagar is Associate Professor in Computer-Science and Engineering department at Ambedkar Institute of Advanced Communication Technologies and Research (Govt. of Delhi), GGSIPU, Delhi, India. His research interests include Database, Advance Database, Data warehouse and Data-mining. He has been in teaching for more than eight years. He has guided under-graduate and post-graduate students in various research projects of databases and data mining.

Publishing Academic Excellence
at the Pace of Technology Since 1988

Section 1: Data Mining in Dynamic Social Networks

Chapter 1

Need for Dynamically in Social Networking Site:

Hura Gurdeep S (University of Maryland Eastern Shore, USA)

Chapter 2

Data Preprocessing for Dynamic Social Network Analysis

Gupta Preeti (Ambedkar Institute of Advanced Communication Technologies and Research, India)

Bhatnagar Vishal (Ambedkar Institute of Advanced Communication Technologies and Research, India)

Chapter 3

Emergent Data Mining Tools for Social Network Analysis

Murthy Dhiraj (Bowdoin College, USA)

Gross Alexander (Bowdoin College, USA)

Takata Alex (Bowdoin College, USA)

Chapter 4

A Conceptual Framework for Social Network Data Security:

Sharma Sanur (Ambedkar Institute of Technology, India)

Bhatnagar Vishal (Ambedkar Institute of Technology, India)

Chapter 5

Analyzing Twitter User-Generated Content Changes

Cagliero Luca (Politecnico di Torino, Italy)

Grimaudo Luigi (Politecnico di Torino, Italy)

Fiori Alessandro (Institute for Cancer Research at Candiolo, Italy)

Chapter 6

Applications of Data Mining in Dynamic Social Network Analysis

Kumar Manish (IIT, Allahabad, INDIA)

Chapter 7

Dynamic Social Network Mining:

Cagliero Luca (Dipartimento di Automatica e Informatica, Politecnico di Torino, Italy)

Fiori Alessandro (IRC@C: Institute for Cancer Research at Candiolo, Italy)

Chapter 8

Data Mining Prospects in Mobile Social Networks

Gebremeskel Gebeyehu Belay (Chongqing University, China)

He Zhongshi (Chongqing University, China)

Zhu Huazheng (Chongqing University, China)

Chapter 9

Semantic Integrating for Intelligent Cloud Data Mining Platform and Cloud Based Business

Intelligence for Optimization of Mobile Social Networks

Gebremeskel Gebeyehu Belay (Chongqing University, China)

He Zhongshi (Chongqing University, China)

Jing Xuan (Chongqing University, China)

Chapter 10

Social Media Analytics:

Pandey Sunil Kr (Institute of Technology and Science, India)

Kansal Vineet (Institute of Technology and Science, India)

Section 2: Data Mining in Fuzzy Systems

Chapter 11

Critical Parameters for Fuzzy Data Mining

Bhattacharya Sinchan (Maharaja Agrasen Institute of Technology, India)

Bhatnagar Vishal (Ambedkar Institute of Advanced, India)

Chapter 12

New Trends in Fuzzy Clustering

Şen Zekâi (Istanbul Technical University, Turkey)

Chapter 13

Analyzing the Performance of a Fuzzy Lane Changing Model Using Data Mining

Moridpour Sara (RMIT University, Australia)

Chapter 14

User Segmentation Based on Twitter Data Using Fuzzy Clustering

Öztaysi Başar (Istanbul Technical University, Turkey)

Onar Sezi Çevik (Istanbul Technical University, Turkey)

Chapter 15

Defining the Factors that Effect User Interest on Social Network News Feeds via Fuzzy Association Rule Mining:

Öztaysi Başar (Istanbul Technical University, Turkey)

Onar Sezi Çevik (Istanbul Technical University, Turkey)
