International Journal of Risk and Contingency Management (IJRCM)

ISSN: 2160-9624; EISSN: 2160-9632; Established: 2012; Published: Continuous Volume

Editor(s)-in-Chief: Narasimha Rao Vajjhala (University of New York Tirana, Albania)

The **International Journal of Risk and Contingency Management (IJRCM)** publishes interdisciplinary research papers, reviews, and case studies that examine risk, uncertainty, and contingency. The journal encourages risk and contingency research from disciplines like healthcare, manufacturing, natural resources, agriculture, government, education, military, transportation, finance, and technology. The journal's cross-disciplinary coverage and applied focus moves risk and contingency management away from pure financial coverage. Academicians and researchers benefit by gaining insights from the research in this journal concerning how risk is measured and mitigated against across different disciplines, industries, and sectors.

Topics Covered:

- Application design and software acceptability
- Behavioristic marketing and prospecting
- Big data analysis and risk assessment
- Business intelligence and data protection risk
- Business operations, management leadership and process continuity
- Certainty assessment, testing, and performance evaluation
- Comparative studies of risk or contingency management across organizations
- Contingency management training, education, and Knowledge transfer
- Contingency planning, risk mitigation, risk transfer
- Criminal behavior risk and social policy concepts
- Decision making, probability and contingency models
- Emerging scientific techniques and research methods
- Game theory and probability concepts
- Global and domestic terrorism analysis
- Global economic recession
- Human behavior management analysis
- Information technology innovation uncertainty
- Information technology risk
- Insurance and health risk
- Internet and intranet protection
- Internet security, forensic analysis, and privacy risk
- Knowledge creation, sharing and contingency models
- Legal challenges and risk aversion best-practices
- Linear and non-linear algorithms and predictability
- National security risk aversion and uncertainty mitigation
- National security safeguards and proactive policy
- Negotiation and coercive behavior predictability
- Novel/unique applications of risk frameworks and models
- Process engineering tolerance and control
- Project risk management, schedule control and scope quality assurance
- Quality assurance, control and reliability engineering
- Reliability engineering and process stability
- Risk and uncertainty in research (including meta-studies)
- Risk assessment and management
- Risk in management science
- Risk in psychology, sociology and the other social sciences
- Risk in public vs. nonprofit vs. government sectors
- Risks and contingency management in traditional economics and finance
- Risk-sensitive industries
- Socio-cultural instability and emerging models
- Socio-technical constraints and opportunities
- Stability versus instability
- Statistical analysis and uncertainty quantification
- Strategic planning and risk identification
- Supply chain logics constraints and opportunities
- Systems architecture certainty and contingency management
- Systems engineering and services engineering uncertainty analysis
- Trust certainty and uncertainty
- Urban design and population risk

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Narasimha Rao Vajjhala, IJRCM@igi-global.com
