

Handbook of Research on the IoT, Cloud Computing, and Wireless Network Optimization (2 Vols.)

Part of the Advances in Wireless Technologies and Telecommunication Book Series

Surjit Singh (National Institute of Technology Kurukshetra, India) and Rajeev Mohan Sharma (National Institute of Technology Kurukshetra, India)

Description:

ICT technologies have contributed to the advances in wireless systems, which provide seamless connectivity for worldwide communication. The growth of interconnected devices and the need to store, manage, and process the data from them has led to increased research on the intersection of the internet of things and cloud computing.

The **Handbook of Research on the IoT, Cloud Computing, and Wireless Network Optimization (2 Vols.)** is a pivotal reference source that provides the latest research findings and solutions for the design and augmentation of wireless systems and cloud computing. The content within this publication examines data mining, machine learning, and software engineering, and is designed for IT specialists, software engineers, researchers, academicians, industry professionals, and students.

ISBN: 9781522573357

Release Date: March, 2019

Copyright: 2019

Pages: 767

Topics Covered:

- Big Data Analytics
- Cloud Mobility
- Computational Intelligence
- Data Mining
- Edge Computing
- Fog Computing
- IoT Security
- Machine Learning
- Mobile Computing
- Sensor Networks
- Software Engineering
- Tactical Internet
- Wireless Technologies

Hardcover: \$425.00

E-Book: \$425.00

Hardcover + E-Book: \$510.00
