

# Mobile Technologies for Organizational Learning

Part of the Advances in Educational Technologies and Instructional Design Book Series

Alona Forkash Baruch (Tel Aviv University, Israel) and Hagit Meishar-Tal (Holon Institute of Technology, Holon, Israel)

## Description:

The use of mobile technology for learning in organizations and the workplace is spreading widely with the development of infrastructure and devices that allow ubiquitous learning and training. Since learning, teaching, and training in a mobile-saturated environment is a developing field, implications for a combined overview of these topics may be beneficial both for research and practice in the broader view of a user's lifespan.

**Mobile Technologies for Organizational Learning** is a collection of innovative research on the methods and applications of mobile technologies in learning and training and explores best practices of mobile learning in organizations and the workplace. While highlighting topics including ethics, informal education, and virtual reality, this book is ideally designed for teachers, administrators, principals, higher education professionals, instructional designers, curriculum developers, managers, researchers, and students.
