

Strategic IT Governance and Performance Frameworks in Large Organizations

Part of the Advances in Business Information Systems and Analytics Book Series

Yassine Maleh (The National Port Agency, Morocco), Abdelkebir Sahid (Hassan 1st University, Morocco) and Mustapha Belaissaoui (Hassan 1st University, Morocco)

Description:

As digitization continues to bring rapid changes to businesses, companies must remain agile in order to comply with changing regulations and maintain governance and compliance while achieving its business objectives. To achieve this agility, IT staff within these companies must be able to respond quickly to changing business needs while maintaining existing and efficient infrastructure.

Strategic IT Governance and Performance Frameworks in Large Organizations is an essential reference source that provides emerging frameworks and models that implement an efficient strategic IT governance in organizations and discusses the effects these policies have on the business as a whole. Featuring six international case studies from large organizations, this title covers topics such as IT management, security policy, and organizational governance, and is ideally designed for IT specialists, academicians, researchers, policymakers, and managers.
