Tao Gao

(Electronic Information Products Supervision and Inspection Institute of Hebei Province & Industry and Information Technology Department of Hebei Province, China)

As technology continues to play a vital role in our everyday lives, advancements in human-computer interaction studies embrace ubiquitous computing as a tool for information processing to evolve into the human environment.

Global Applications of Pervasive and Ubiquitous Computing provides the global applications and efforts in building and applying pervasive and ubiquitous computer technology. This book provides an essential collection of research on information technology for educators, researchers, and practitioners aiming to advance the practice and understanding of pervasive and ubiquitous applications.

Topics Covered:

- Human-Computer Interaction
- Ubiquitous Computing
- Smart Grid Applications
- Pervasive Computing Environments
- Architecture Development
- Software Development
- · Information Systems

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Tao Gao is a Research Engineer of Electronic Information Products Supervision and Inspection Institute of Hebei Province, Shijiazhuang, China. He is interested in artificial intelligence, IntelliSense, internet of physical objects, automatic identification, real-time localization, digital information processing, motion detection, computer vision, cloud computing, and so on. His previous research explored motion tracking, moving object detection, and video based motion pattern reorganization. He is the author or co-author of more than 10 refereed international journal and conference papers, covering topics of intelligent multimedia processing, intelligent transportation systems, and internet of things. He is a member of IEEE, IEEE Consumer Electronics Society, IEEE Computer Society, Association for Computing Machinery, China Computer Federation, and Chinese Institute of Electronics. He is the guest Reviewer of several refereed international journals, i.e., IEEE Transactions on Intelligent Transportation Systems, Multimedia Tools and Applications, Journal of Supercomputing, EURASIP Journal on Advances in Signal Processing, Journal of the Chinese Institute of Engineers, International Journal of Image Processing, et cetera. He is TPC member of refereed conferences, e.g., EMEIT 2011, ICEOE 2011, ICCDA 2011, MINES 2010, ITSIC 2010, et cetera.

Publishing Academic Excellence at the Pace of Technology Since 1988

Chapter 1

Design and Implementation of the Embed Computer Based on CompactPCI Express Bus

Guo Feng (Jiangsu Automation Research Institution, China)

Yin Zhenxing (Jiangsu Automation Research Institution, China)

Wu Liang (Jiangsu Automation Research Institution, China)

Shen Hao (Jiangsu Automation Research Institution, China)

Chapter 2

Niche Genetic Algorithm Based on Sexual Reproduction and Multimodal Function Optimization Problem

Tian Yulong (China University of Geosciences Great Wall College, China)

Gao Tao (Electronic Information Products Supervision and Inspection Institute of Hebei Province

& Industry and Information Technology Department of Hebei Province, China) Zhai Weifang (China University of Geosciences Great Wall College, China)

Hu Yaying (Hebei University Computer Center, China)

Li Xinfeng (China University of Geosciences Great Wall College, China)

Chapter 3

Coordination Performance Evaluation of Supply Logistics in JIT Environment

Li Guo (Beijing Institute of Technology, China)

Zhang Xiang (Beijing Institute of Technology, China)

Wang Zhaohua (Beijing Institute of Technology, China)

Gao Tao (Hebei Electronic Information Products Supervision and Inspection Institute & Industry

and Information Technology Department of Hebei Province, China)

Chapter 4

The WiMap:

Xu Junjun (Beijing University of Posts and Telecommunications, China)

Luo Haiyong (Institute of Computing Technology Chinese Academy of Sciences, China)

Zhao Fang (Beijing University of Posts and Telecommunications, China)

Tao Rui (Beijing University of Posts and Telecommunications, China)

Lin Yiming (Institute of Computing Technology Chinese Academy of Sciences, China)

Li Hui (Institute of Computing Technology Chinese Academy of Sciences, China)

Chapter 5

A Novel Design of Motion Detector Using Mouse Sensor

Zhang Boning (Institute of Computing Technology, Chinese Academy of Sciences and Graduate

University of Chinese Academy of Sciences, China)

Wang Xiangdong (Institute of Computing Technology, Chinese Academy of Sciences, China) Qian Yueliang (Institute of Computing Technology, Chinese Academy of Sciences, China)

Lin Shouxun (Institute of Computing Technology, Chinese Academy of Sciences, China)

Chapter 6

Identifying Disease Genes Based on Functional Annotation and Text Mining

Yuan Fang (Shenzhen Institute of Information Technology, China)

Li Mingliang (Shenzhen Institute of Information Technology, China)

Li Jing (Huawei Technologies Corporation, China)

TB-WPRO:

Chen Qihua (Institute of Computing Technology, Chinese Academy of Sciences, China)

Wang Xiangdong (Institute of Computing Technology, Chinese Academy of Sciences, China)

Qian Yueliang (Institute of Computing Technology, Chinese Academy of Sciences, China)

Chapter 8

Constructing the Collaborative Supply Logistics Operation Mode in Assembly System under JIT Environment

Li Guo (Beijing Institute of Technology, China)

Gao Tao (Hebei Electronic Information Products Supervision and Inspection Institute and

Industry, China)

Ran Lun (Beijing Institute of Technology, China)

Construction Competitiveness Evaluation System of Regional BioPharma Industry and Case Study:

Zhao Bing (Hebei University of Technology and Shijiazhuang University, China)

Zhang Dong Sheng (Hebei University of Technology, China)

Zhao Yong Zheng (CSPC Pharmaceutical Group Limited, China)

Development of Intellectual Property of Communications Enterprise and Analysis of Current Situation of Patents

in Emerging Technology Field

Ding Wenjia (State Intellectual Property Office, China)

Image Fusion of ECT/ERT for Oil-Gas-Water Three-Phase Flow

Zhang Lifeng (North China Electric Power University, China)

Modern Educational Technique Center Educational Media Management Based on Design and

Practice of Ouestionnaire

Jie Hou (Tianjin Foreign Studies University, China)

Chapter 13

Residential Load Pattern Analysis for Smart Grid Applications Based on Audio Feature EEUPC

Wang Yunzhi (Institute of Computing Technology, Chinese Academy of Sciences and Graduate

University of Chinese Academy of Sciences, China)

Wang Xiangdong (Institute of Computing Technology, Chinese Academy of Sciences, China)

Qian Yueliang (Institute of Computing Technology, Chinese Academy of Sciences, China)

Luo Haiyong (Institute of Computing Technology, Chinese Academy of Sciences, China) Ge Fujiang (Fujitsu Research & Development Center Co., Ltd., China)

Yang Yuhang (Fujitsu Research & Development Center Co., Ltd., China)

Xia Yingju (Fujitsu Research & Development Center Co., Ltd., China)

The Design of Portable Integration Strengthening Machine

Yuan Li (Jiangsu Automation Research Institute, China)

Lu Ximing (Jiangsu Automation Research Institute, China)

Huang Ruifang (Jiangsu Automation Research Institute, China)

Chapter 15

The Information Construction of Wind Farm Based on SIS System

Wan-Ye Yao (North China Electric Power University, China)

Shi Yin (North China Electric Power University, China)

Beyond 3G Techniques of Orthogonal Frequency Division Multiplexing and Performance Analysis via Simulation

Wang Chunyan (State Intellectual Property Office, China)

Chapter 17

Dynamic Spectrum Auction and Load Balancing Algorithm in Heterogeneous Network

Jiang Yan (State Intellectual Property Office, China)

Chapter 18

A Novel Detection Method of Paper Defects Based on Visual Attention Mechanism

Jiang Ping (University of Jinan, China)

Gao Tao (Electronic Information Products Supervision and Inspection Institute of Hebei

Province, China)

Research and Implementation of Self-Publishing Website Platforms for Universities Based on CMS

Chong Liu (Heibei Finance University, China)

Mei Wang (Heibei University, China)

Guang An Wen (Heibei Finance University, China)

Chapter 20

Dynamic and Secure Business Data Exchange Model for SaaS-Based Collaboration Supporting Platform of

Industrial Chain

Wang Shuying (Southwest Jiaotong University, China)

Li Jizi (Wuhan Textile University, China)

Ma Shihua (Huazhong University of Science & Technology, China)

3-D Video based Disparity Estimation and Object Segmentation

Gao Tao (Electronic Information Products Supervision and Inspection Institute of Hebei

Province, China)

Chapter 22

Design and Implementation of Bipolar Digital Signal Acquisition and Processing System based on FPGA and

Lin Guangfu (Jiangsu Automation Research Institute, China)

Yin Zhenxing (Jiangsu Automation Research Institute, China) Feng Guo (Jiangsu Automation Research Institute, China)

Financial Distress Prediction of Chinese-Listed Companies Based on PCA and WNNs

Xin Xiu (Hebei Finance University, China)

Xiong Xiaoyi (Hebei Finance University, China)

Highway Background Identification and Background Modeling Based on Projection Statistics

Zhang Jun (Tianjin University, China)

Chapter 25 Method of Measuring the Switching Time of Dual Redundant NIC Tao Zhengrong (Jiangsu Automation Research Institute, China) Yin Zhenxing (Jiangsu Automation Research Institute, China)	
Chapter 26 Modeling of Across-Chain Network Dynamic Competition for MNC in Industrial Cluster Liu Chunling (Wuhan Textile University, China) Li Jizi (Wuhan Textile University, China) Li Guo (Beijing Institute of Technology, China) Cao Xiaogang (Wuhan Textile University, China)	
Chapter 27 Comprehensive Structure of Novel Voice Priority Queue Scheduling System Model for VoIP over WL Nisar Kashif (CAS—Universiti Utara Malaysia, Malaysia) Amphawan Angela (University of Oxford, UK, & Universiti Utara Malaysia, Malaysia) Hassan Suhaidi B. (Universiti Utara Malaysia, Malaysia)	$4{ m N}_{ m S}$
