Trends in E-Business, E-Services, and E-Commerce: Impact of Technology on Goods, Services, and Business Transactions

Part of the Advances in E-Business Research Book Series

In Lee
(Western Illinois University, USA)

The emergence of internet technologies have provided organizations and customers with access to vast amounts of data, information, and services which have revolutionized the process of exchanging products and services online.

Trends in E-Business, E-Services, and E-Commerce: Impact of Technology on Goods, Services, and Business Transactions provides insights into issues, challenges, and solutions related to the successful application and management aspects of electronic business. This book will bring together a comprehensive framework for researchers and practitioners in understanding the growing demand of e-business research.

Topics Covered:

- E-Business Models and Architectures
- Electronic Communications
- Electronic Supply Chain Management
- Online Consumer Behavior
- Valuing e-Business Assets
- Mobile Commerce
- E-Business Transactions and Information
