Foreign Direct Investments (FDIs) and Opportunities for Developing Economies in the World Market

Part of the Advances in Finance, Accounting, and Economics Book Series

Venkataramanaiah Malepati (University of Gondar, Ethiopia) and C. Mangala Gowri (University of Gondar, Ethiopia)

Description:
The role of foreign direct investment initiatives is pivotal to effective enterprise development. This is particularly vital to emerging economies that are building their presence in international business markets.

Foreign Direct Investments (FDIs) and Opportunities for Developing Economies in the World Market is a critical scholarly publication that explores the importance of global stocks to new economic structures and explores the effects that these holdings have on the financial status of growing nations. Featuring a broad range of topics, such as economic transformation, investment in production facilities, and foreign direct investors, this publication is geared towards academicians, practitioners, and researchers seeking current and relevant research on the importance of global investment in new and growing financial municipalities.

Topics Covered:

- Economic Transformation
- Foreign Direct Investors
- International Marketing Networks
- Investible Resources and Capital Formation
- Investment Destinations
- Investment in Production Facilities
- Private External Finance
