

International Journal of Information Technology and Web Engineering (IJITWE)

ISSN: 1554-1045; EISSN: 1554-1053
Established 2006; Published Quarterly

Editor(s)-in-Chief: Ghazi I. Alkhatib (The Hashemite University, Jordan)

Organizations are continuously overwhelmed by a variety of new information technologies; many are Web-based. These new technologies are capitalizing on the widespread use of network and communication technologies for seamless integration of various issues in information and knowledge sharing within and among organizations. This emphasis on integrated approaches is unique to this journal and dictates cross platform and multidisciplinary strategy to research and practice.

Individual Price:

Print: US \$295
E-Journal: US \$295
Print + E-Journal: US \$360

Institution Price:

Print: US \$840
Online Access: US \$840
Print + Online Access: US \$1,015
Prices are subject to change without notification.

Indexed in:

Topics Covered:

- Artificial intelligence, machine learning, and deep learning for the Web
- Cloud Edge computing architectures, models, and applications in the Web
- Data analytic (data mining and big data) systems and applications in the Web
- Data and knowledge engineering-capture and quality issues - validation and verification
- Integrated user profile, provisioning, and context-based processing in the Web
- Internet of Things (IoT) and Web of things (WoT) architectures, models, and application studies
- Knowledge structure, classifications, and search algorithms and engines
- Mobile, location-aware, and ubiquitous computing
- Ontology and semantic Web studies
- Quality of service and service level agreement issues among integrated Web systems
- Radio Frequency Identification (RFID) research and applications in Web engineered systems
- Security, integrity, privacy, and policy issues of Web-based systems
- Software agent-based systems and applications in the Web
- Web systems architectures, including distributed grid computing and communication systems processing
- Web systems engineering design and implementation
- Web systems performance engineering studies
- Web user interfaces design, development, and usability engineering studies
- Web-based block-chain tools, applications, and case studies
- Web-based digital forensic tools, analysis, recovery, and applications

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Ghazi I. Alkhatib, IJITWE@igi-global.com
