

Extreme Weather and Impacts of Climate Change on Water Resources in the Dobrogea Region

Part of the Research Essential Book Series

Carmen Maftai ("Ovidius" University of Constanta, Romania)

Description:

New technologies and assessment methods create improved opportunities to monitor and predict the onset of natural disasters in the era of global warming. Researchers continue to evaluate the changes in weather patterns in order to better understand natural phenomena.

Extreme Weather and Impacts of Climate Change on Water Resources in the Dobrogea Region presents a descriptive environmental resource focused on a Romanian region affected by the changing climate. This book discusses methods of assessment, monitoring, and prediction.

Readers:

The research included in this publication is an essential reference for policymakers, academicians, researchers, advanced-level students, technology developers, and government officials who wish to expand their research exposure to pertinent topics relate

ISBN: 9781466684386
