## Business Technologies in Contemporary Organizations: Adoption, Assimilation, and Institutionalization

Premier Reference Source

### Business Technologies in Contemporary Organizations

Adoption, Assimilation, and Institutionalization

Part of the Advances in Business Information Systems and Analytics Book Series

Abrar Haider  
(University of South Australia, Australia)

As two areas of study that thrive on change and innovation, the combination of electronic resources and corporation management presents many challenges to researchers and professionals as information is discovered and applied to existing practices.

**Business Technologies in Contemporary Organizations: Adoption, Assimilation, and Institutionalization** investigates the reciprocal relationship between information systems and corporations in order to understand and assess the benefits of this partnership as technology continues to progress. This publication is an essential reference source for researchers, practitioners, and students interested in the practical and theoretical implementation of information systems and electronic resources in corporations and firms.

#### Topics Covered:

- Consumerization of IT
- Data Management
- Global Competitiveness
- Information Systems
- Social Network Characteristics
- Socio-Economic Impact
- System Design

ISBN: 9781466666238; © 2015; 337 pp.

Print: US \$205.00 | Perpetual: US \$310.00 | Print + Perpetual: US \$410.00

**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

**Abrar Haider** is a research fellow at the University of South Australia. His professional experience spans two decades, working in the IT and education sectors in Australia, Pakistan, North America, Middle East, South East Asia, and the Far East. He has taught at undergraduate and postgraduate levels in Australia, Hong Kong, Malaysia, and Singapore. His areas of research interest include technology management and institutionalisation, IT governance, organisational transformation, and IT-based engineering infrastructure asset management.
