

Fostering Meaningful Learning Experiences Through Student Engagement

Part of the Advances in Educational Technologies and Instructional Design Book Series

Despo Ktoridou (University of Nicosia, Cyprus), Elli Doukanari (University of Nicosia, Cyprus) and Nikleia Eteokleous (Frederick University, Cyprus)

Description:

Educators are continuously seeking ways to engage their students in active learning processes and are faced with challenges that include engaging students in learning activities, promoting meaningful learning experiences, and providing effective experiences for every student. Studies that investigate instructors' experiences are limited since more focus is given to students.

Future research calls for teachers' innovative contributions in introducing new strategies and teaching approaches to further involve students, increase student attendance in online sessions, and employ a variety of technological tools.

Fostering Meaningful Learning Experiences Through Student Engagement is an essential reference source for the latest scholarly information on curriculum development, instructional design, and pedagogical methods for fostering student engagement learning initiatives. The book examines engagement and meaningful learning techniques in both face-to-face and online instruction. Covering topics that include active learning, language learning, teacher experiences, and teacher-student relationships, this book is ideally designed for teachers, instructional designers, curriculum developers, academicians, researchers, professionals, and students that believe that stronger or improved student engagement should be their instructional objectives and wish to engage students in learning activities that promote meaningful learning experiences.

ISBN: 9781799846581

Pages: 325

Copyright: 2021

Release Date: October, 2020

Hardcover: \$195.00

Softcover: \$150.00

E-Book: \$195.00

Hardcover + E-Book: \$235.00

Topics Covered:

Active Learning
Behavioral Engagement
Blended Learning
Educational Technology
Language Learning
Meaningful Learning
Online Learning

Remote Learning
Student Engagement
Teacher-Student Relationship
Teaching Experiences
Technology Integration
Universal Design for Learning

Subject: Education

Classification: Edited Reference

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
