

# Intersecting Health, Livability, and Human Behavior in Urban Environments

Part of the Advances in Religious and Cultural Studies Book Series

Roberto Alonso González-Lezcano  
(Universidad CEU San Pablo, Spain)

## Description:

There are ongoing debates on the concepts surrounding the roles of Indigenous people in transforming the entrepreneurial landscape to promote socio-economic development. Arguably, the culture and ways of our lives, in the context of entrepreneurship, have a role in influencing social economic development. The ideals between the entrepreneurial practice of Indigenous people and their culture are somewhat commensal towards sustainable growth and development. The practice of Indigenous and cultural entrepreneurship is embedded in historical findings.

**Intersecting Health, Livability, and Human Behavior in Urban Environments** provides insights into the policy, culture, and practice that influence the impact of local and Indigenous entrepreneurs within communities which transcends to socio-economic development. This is critical as the knowledge gained from our entrepreneurial diversity can provide a platform to reduce social ills as a result of unemployment and give a sense of belonging within the social context. Covering key topics such as government policy, entrepreneurial education, information technology, and trade, this premier reference source is ideal for policymakers, entrepreneurs, business owners, managers, scholars, researchers, academicians, instructors, and students.

**ISBN:** 9781668469248

**Pages:** 320
